

Softline

Softline office partitions is a modular system which easily adapts to the changing requirements of the modern workspace. Available as a floor and table model. All screens are assembled without any use of tools making it a very flexible system. With its sound absorbing core (class A), it creates a comfortable work-space. It consists of a 50 mm thick acoustic panel of fireproof material. Indicated heights excl. legs. Standard fabrics are Event and Atlantic from Gabriel. When placing an order, please indicate color suffix, from category A- or B- fabrics. Other fabrics per customer request.

TABLE SCREENS

The Softline table screen is made of a solid wood frame filled with acoustic panel. Shelves can be mounted, but not in the screen corner. The screens are covered in optional Event or Atlantic fabrics. Other fabrics per request. For each screen a pair of fittings are needed. Effective fitting gap measure: 37 mm for mounting on table top, 37 mm width is to be used for table top fitting only, 77 mm width for fitting on table top and underlying frame. *Note:* table fittings are now available in grey white colour NCS S 1502 Y. Distance between screen and table top is 25 mm. Indicated heights excl. fittings.
