VERSATILE. STRIKING. BEAUTIFUL.

The Wovin Wall® and Wave Wall™ ranges provide design solutions for interior walls and ceilings unlike any other product, elegant, simple, lightweight decorative wall and ceiling features which are easy to install and can be fixed to most walls or ceilings.

Wovin Wall® and Wave Wall™ are modular systems which can be extended in any direction and custom sized to suit most spaces. For those spaces which change frequently (such as exhibition and retail spaces), the modular nature of the Wovin Wall® range is the perfect medium to reflect new colour schemes, product launches or seasonal changes.

Wovin Wall® and Wave Wall™ are available in a wide variety of standard finishes such as timber veneer, polypropylene, laminate and aluminium. They can also be made from custom materials to suit your project.

Wovin Wall® designs create a powerful statement in lobby and foyer areas. Tile finishes can be selected to compliment the colours and textures of the surrounding interior space.

IBM Executive Briefing Centre
San Jose – California, United States
Tiles – Standard, American Walnut on curved lightbox.

Instyle Contract Textiles
Brisbane, Australia

Tiles – Standard, Anodised Aluminium on lightbox with back lighting and coloured LED lighting wash to front.

Wovin Wall® tiles in various finish combinations can be used to enhance texture and tones within a space.

Acquolina Bar

Portside – Brisbane, Australia

Tiles – Standard, Anodised Aluminium,
White Polypropylene, Macassar Veneer.

Royal Oak Hotel

Balmain – Sydney, Australia

Tiles – Standard, Hoop Pine.

Frame – Standard

Backlit tiles on both the wall and ceiling can be used to striking effect. The use of dimmers and coloured lighting effects, changed from day to night add to the mood created by the use of Wovin Wall® allowing the interior space to be used more flexibly.

RIPPLE

Ripple uses a dual curved tile system to create a sense of depth in a smaller scale tile. A glimpse of the Shadow Tile in either a fabric upholstered or polypropylene finish, peeking through the contrasting textures of the Ripple Tiles give the system a beautiful effect.

Ripple and Wave can be highlighted with the use of lighting. Downlighting accentuates the play of shadow on the curves, while backlighting behind suitable finishes creates stunning effects.
